

Not sure how to spend the remaining balance on your prepaid debit card?

MOBILE WALLET (e.g., Cash App, Google PayTM, Venmo, etc.)

1. Log into your mobile wallet and add your prepaid debit card.
2. Follow the mobile wallet instructions for how to initiate a transfer from your prepaid debit card to your wallet balance.

POINT OF SALE

1. Know your card balance.
2. If the balance is less than the amount of your purchase at checkout, simply request to pay with the full amount on your card and another method of payment.
3. Grocers and other large merchants often accept two methods of payment for a purchase, allowing you to spend the full amount on your card – be sure to ask at checkout.
